	Newsletter DB(TM)	**1987 – 1999/July 15 Fulltext**

An online search was conducted, on July 15, 1999, in the following Dialog Indexes/Databases: Current Contents, SciSearch , Medline, Biosis, Occupational Safety and Health, Trade and Industry Database, and Newsletter Database, for articles pertaining to smoking frequency and/or smoking prevalence in workplaces in which smoking is banned or restricted. The following search strategy was used: **(SMOK??? (W) FREQUENC???) OR (SMOK??? (W) PREVALENC???) AND (WORKPLACE?)**. Duplicate items were removed, and the search was narrowed to only those items published between 1986 and 1996. The results were further narrowed by adding the following: **AND (BAN??? OR RESTRICT????)**, resulting in forty-two unique citations.

The results of this search are attached. To order any of the citations, please contact me at your convenience. My office phone number is 4-3642, or feel free to email me. If I may be of additional assistance, please do not hesitate to call.
